NOTICE OF RACE
2005 CYC Commodore's Cup

SPONSOR:

Carlyle Yacht Club, Carlyle Illinois

RACE PROGRAM

Carlyle Yacht Club's Commodore's Cup is organized and optimized for, but not limited to, auxiliary displacement monohull sailboats approximately 20'-40' LOA. Such boats are commonly equipped with a galley, head and permanent sleeping berths. The PHRF and Time-on-Time handicapping methods are used to race heterogeneous boats within single fleets.

RULES:

The International Sailing Federation's The Racing Rules of Sailing for 2005-2008 unless superseded by the Sailing Instructions. This Carlyle Yacht Club regatta is designated as a Category "A" event.

ELIGIBILITY:

- The Carlyle Yacht Club Commodore's Cup is open to all boats fitting the description as defined in the Race Program.
- Each skipper shall fully registered with all regatta fees paid in full to the CARLYLE YACHT CLUB prior to the Skipper's Meeting.
- Each skipper/boat shall have completed the registration and boat declaration form. The form must be accepted prior to the start of the skipper's meeting as described in the schedule below.
- To be eligible, a boat shall have a unique and easily recognizable number displayed on both sides of the mainsail. If duplicate sail numbers with another boat occur, the RC can require either boat to change their sail number.
- All boats shall comply with Coast Guard requirements, applicable state and federal laws, and Class Rules if sailing with a class/one-design specific PHRF rating.
- Auxiliary motor power is required for safety reasons. The engine may be removed from the transom and stowed aboard if desired.
- A professional sailor may participate as crew, but may not serve as helmsman unless they are the owners of the boat. The helmsman of every participating boat shall be an amateur or the owner. An amateur is a mariner who engages in yacht racing as a pastime, distinguished from a professional who derive their primary livelihood from the marine industry. The Sail Fleet Captain and their committee shall be the sole judge in determining whether any specific individual is an amateur or a professional.
- Lifelines (if present) shall be taut. As a guide, when a deflecting force of 11.2# is applied to a lifeline midway between supports, the lifeline shall not deflect more than 3". If lifelines are present, the body torsos of crew shall remain inside of the lower lifeline. If there are no lifelines, the body torsos shall remain inside of the shear line of the boat.
